# Condensed Annual Report for Pensioners

## Overview: Pension System continues to be strong and sound

The Board of Trustees and staff of the Dallas Police and Fire Pension System are pleased to present highlights from the *2001 Annual Report*. The Dallas Police and Fire Pension System provides comprehensive retirement, death, and disability benefits for the City's approximately 7,373 Police Officers, Firefighters, Pensioners, and their beneficiaries. Established in 1916, the System recently celebrated its 85th anniversary of ensuring the financial future of its Members and their families.

In 2001, the System paid more than \$83 million to almost 3,000 Pensioners and beneficiaries. Our number one priority is to ensure that pension checks are paid correctly and on time.

The System remains financially sound, even though declining financial markets caused the market value of the System to decrease from \$2.04 billion to \$1.9 billion as of December 31, 2001. The annual return for 2001 was -6.74%. However, the annualized return during the last 20 years of 12.35% significantly exceeds the actuarial assumed investment return.

In 2001, the System's member programs continued to serve both Active Members and Pensioners.

POLICE & FIRE  
PENSION SYSTEM

Newsletters were produced each month for both Active Members and Pensioners. The System's Internet Web page and e-mail system were used by Active Members and Pensioners to communicate with the Pension System. The Internet address is *www.dpfp.org*. You may reach us by e-mail at *info@dpfp.org*.

The combination of Member and City contributions with an outstanding long-term record of investment performance has led to the excellent financial condition of the Pension System.

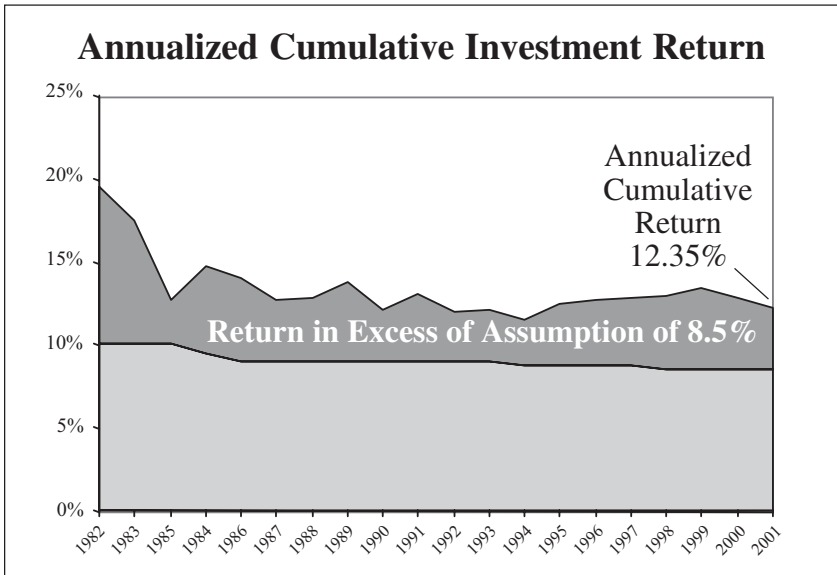

*The amount of benefits paid to Pensioners and survivors has steadily increased throughout the years. In 2001, benefit payments totaled more than \$83.4 million.*

## Investment Performance: Cumulative return on investments has consistently exceeded the long-term investment return assumption

The System retains the services of financial consultants and investment managers who assist the Board in investing the System's assets. The Board has an investment policy and funding plan to further secure Members' benefits.

This *Condensed Annual Report* of the Dallas Police and Fire Pension System has been derived from the audited financial statements of the System and the actuarial valuation for the year ending December 31, 2001. Its purpose is to highlight the key points from the full annual report. The Board of Trustees is pleased to inform the membership that funding progress is on schedule and the overall performance of the fund is excellent.

The Board of Trustees' primary commitment to our Members is to maintain the excellent financial condition of the System.

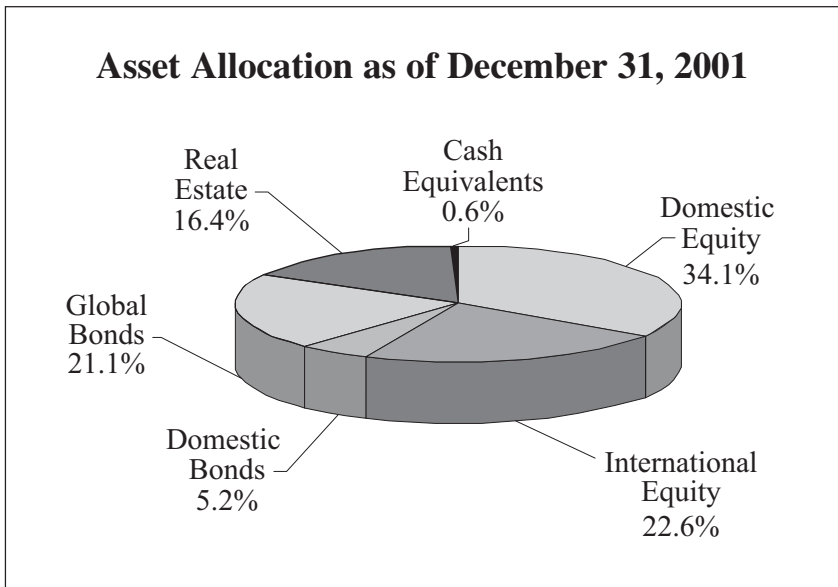

*The graph above shows the System's 20-year cumulative investment return.*

## Investment Policy: Diversified investments provide stability and long-term growth

The primary objective of the Dallas Police and Fire Pension System Investment Policy is to implement a prudent asset allocation plan that seeks to maximize return while preserving asset value.

A cornerstone of this policy is diversification. Investments are diversified among various asset classes, including common stocks, bonds, real estate, foreign securities, and short-term cash instruments. The goal of this diversification policy is to provide benefits to our participants and their qualified survivors through a carefully planned and executed investment program. The graph below demonstrates the diversification of the System's assets among the various asset classes.

*Pension System assets were diversified into the categories shown above as of December 31, 2001.*

## Membership: Serving more than 7,300 public safety Members and their families

During the past 20 years, the number of Active Members, Pensioners, and Qualified Survivors participating in the Dallas Police and Fire Pension System has grown from just over 5,000 to more than 7,300, an increase of approximately 2,300 participants. Today, the System serves more Active Members, Pensioners, and Qualified Survivors than ever before.

The charts below detail Pensioner membership and benefits paid for 2001.
