2. Possible technical change to unitization of Trust

The staff discussed the possible use of an alternative method for purposes of allocating the assets of the Trust between the Combined Pension Plan and the Supplemental Plan. J.P. Morgan, custodian of DPFP’s investment portfolio, has proposed the use of the “allocation” method as opposed to the current use of the “unitization” method. The “allocation” method is strictly based on dollar value, while the “unitization” method assigns a number of shares to each plan. The objective of the unitization of the Trust is to allocate the portfolio of assets and the related gains and losses pro-rata between the two plans. The results of the two methods do not differ and the proposed allocation method offers the ability for more transparent reporting from J.P. Morgan to staff on how the allocation is derived.

Mr. Brown made a motion to approve the use of the allocation method of allocating assets between the Combined Pension Plan and the Supplemental Plan as soon as administratively feasible. Mr. Haben seconded the motion, which was unanimously approved by the Board.
